ANNUAL REPORT | RAPPORT ANNUEL D'ACTIVITÉ

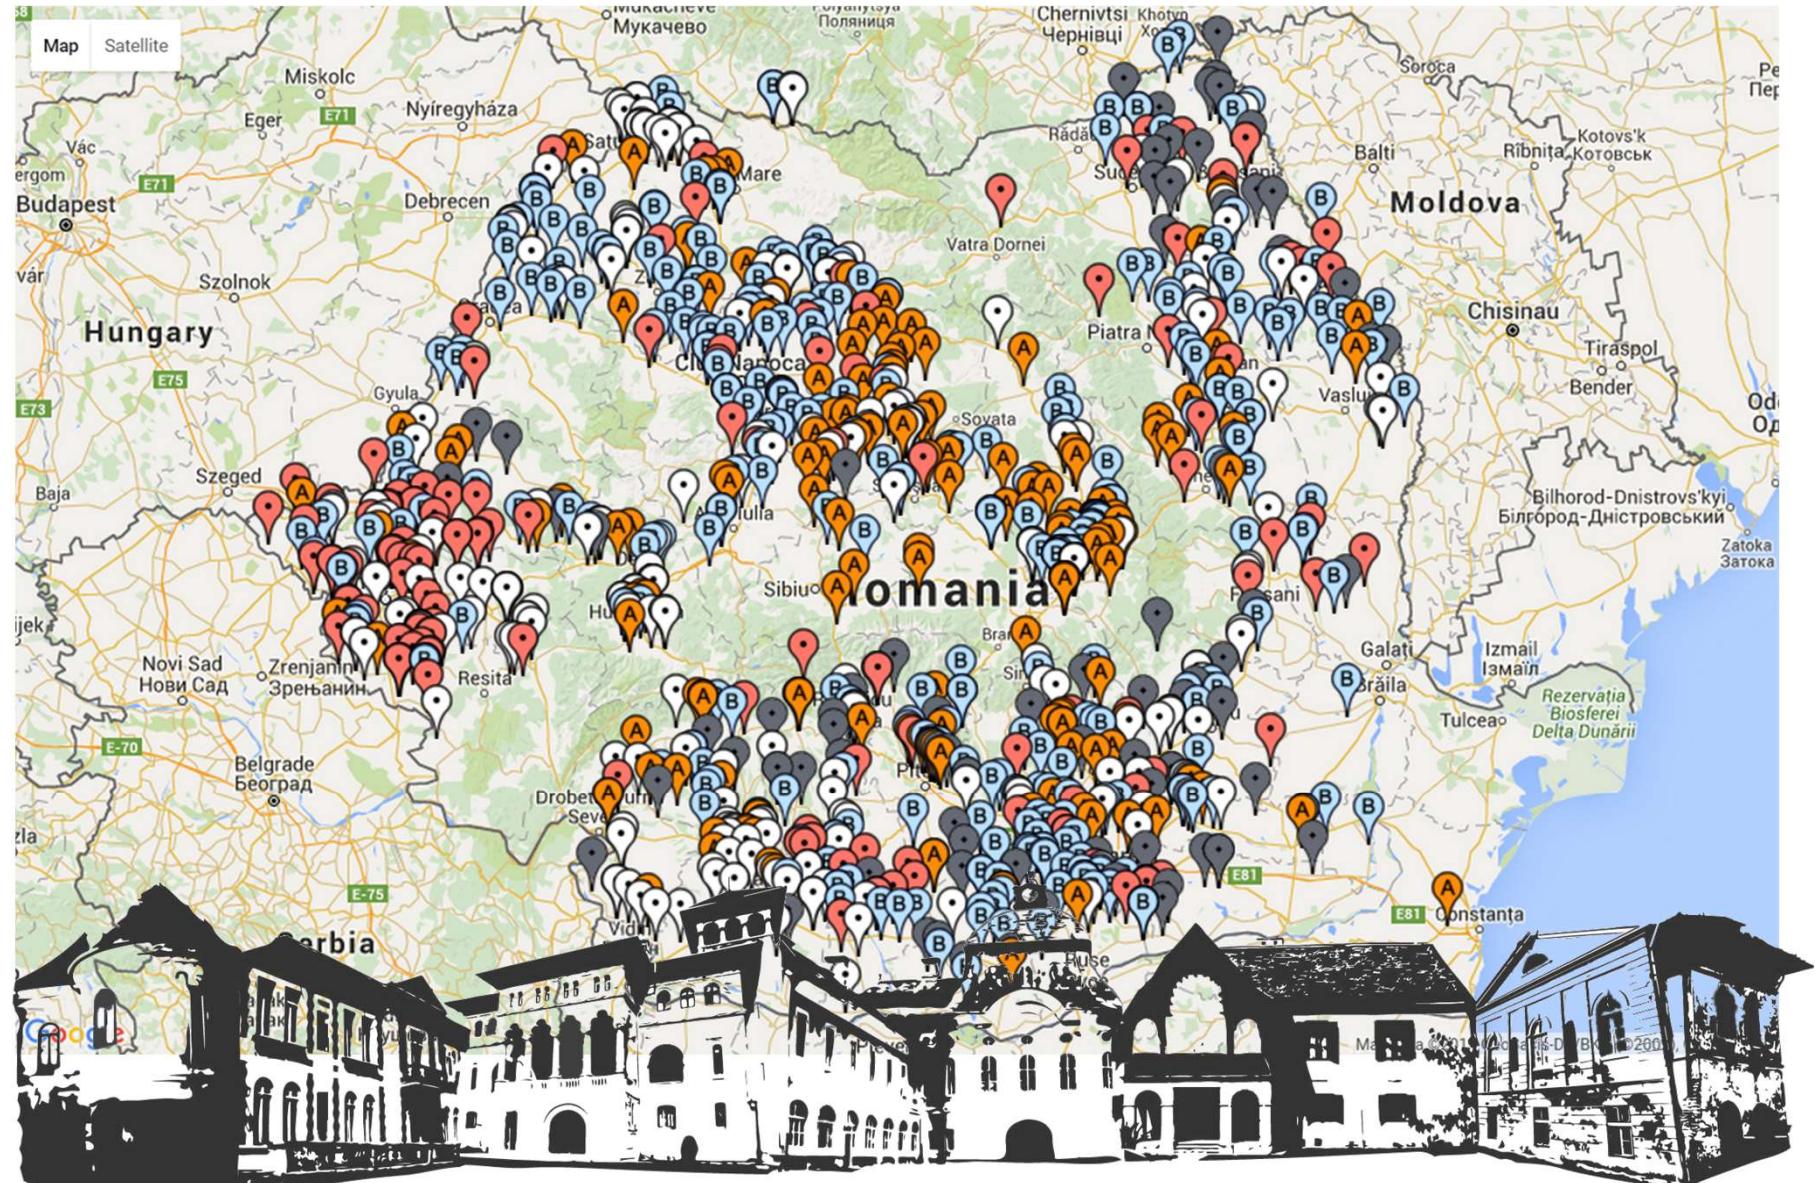

WHAT UNITES US? | QU'EST-CE QUI NOUS RASSEMBLE?

The belief that cultural heritage represents our shared history, defines the present and helps us build a better future. Our mission is to support and stimulate public interest in cultural heritage (especially built heritage) **by promoting knowledge, appreciation and protection of this highly complex and vulnerable resource.**

La conviction que le patrimoine culturel représente notre histoire commune, définit le présent et nous aide à construire un meilleur avenir. Notre mission est de soutenir et stimuler l'intérêt du public pour le patrimoine culturel (en particulier pour le patrimoine bâti) en promouvant la connaissance, l'appréciation et la protection de cette ressource extrêmement complexe et vulnérable.

MONUMENTE UITATE

THE FUTURE IS HERITAGE

International network and platform aiming to support young people working in the field of cultural heritage in Europe.

Réseau et plateforme internationaux qui vise à renforcer la position des jeunes travaillant dans le domaine du patrimoine à travers l'Europe.

ARCHÉ Summer School | L'école d'été ARCHÉ

OUR VISION | NOTRE VISION

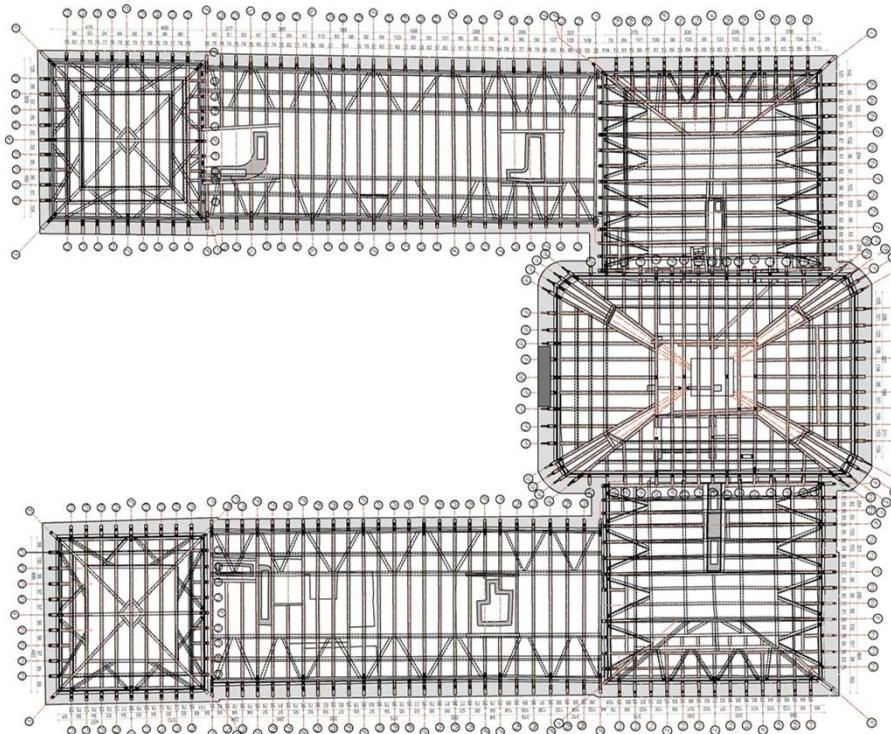

To ensure the sustainable valorisation and exploitation of cultural heritage, respectively of the typology represented by castles, mansions and historical estates.

Assurer la valorisation et l'exploitation durable du patrimoine culturel, respectivement de la typologie représentée par les châteaux, manoirs et domaines historiques.

The screenshot displays the TreePlotter Inventory dashboard. On the left, a sidebar lists 'DASHBOARD', 'STATS', 'BY THE NUMBERS', 'CHARTS AND GRAPHS', and 'ECOSYSTEM BENEFITS'. The main area features a 'Total Tree Value and Savings' section with a globe icon, showing a total monetary benefit of \$44,700. Below this, various ecosystem benefits are listed with icons: Stormwater Monetary Benefit (\$12,375), Runoff Prevention (1,287,640 gallons), Property Value Total (\$16,568), Energy Savings (\$6,227), Natural Gas Savings (\$6,459), Heat Prevention (6,637 therms), Air Quality Monetary Benefit (\$1,653), Pollutants removed (1,034 lb), Carbon Monetary Benefit (\$1,417), Carbon Stored (210,561 lb), Carbon Sequestered (115,742 lb), and Carbon Avoided (120,796 lb). A central map shows numerous colored dots representing tree locations, with a legend on the right detailing tree species and their counts. The legend includes filters applied: 'Tree Filter: Denumire comună is not Null' and 'Client Site Filter: (Client Site=releveu_Teleki)'. The map also shows a 100m scale bar and a Google logo.
